

CONCURRENT DISORDERS

— CAPACITY BUILDING TEAM —

Administration: 905-522-1155 x39343 | cdcapacitybuilding.com

Who Are We?

An interdisciplinary team with the mission of building capacity to provide integrated care for individuals who experience concurrent disorders (mental health and addiction issues simultaneously) across St. Joseph's Healthcare Hamilton (SJHH) and the surrounding community.

What Do We Do?

Provide Consultations

We provide consultations across St. Joseph's organization to individuals who use substances or are struggling with addiction, at any level of motivation/stage of change. We work collaboratively with members of the clients' clinical team to formulate individualized interventions.

How Do I Request a Consult?

Outpatient: Through Connect MHAP

Phone: 905-522-1155 ext. 36499

Fax: 905-389-3815

Inpatient: Place an order for "Concurrent Capacity Team Inpatient Consult" through Dovetale.

Why Do We Do This?

The prevalence of concurrent disorders is extremely high. .

Integrated treatment (where both addiction and mental health needs are addressed simultaneously) has been found to lead to better outcomes for individuals who experience concurrent disorders.

Our aim is to increase comfort and confidence in your ability to effectively incorporate substance use in your conversations with patients.
